

SOUTH SHORE HOSPITAL  
PRESIDENTS' CIRCLE

# Custom Care

For nearly a quarter of a century, Natale's Men's Clothier of Hanover has crafted custom men's clothing tailored for each individual customer.

At South Shore Hospital, we also know that each cardiovascular patient is unique. We have brought the most

advanced care to our region to diagnose and treat heart rhythm disturbances. In our cardiac electrophysiology laboratory, specially trained, board-certified cardiologists measure and map the electrical impulses in patients' hearts. The results are used to tailor treatments for patients with arrhythmias.

We are pleased to recognize Natale's Men's Clothier of Hanover for joining South Shore Hospital's Presidents' Circle — leading businesses whose generosity supports the care we provide to the people of Southeastern Massachusetts.

**Call (781) 340-8847 or visit [southshorehospital.org](http://southshorehospital.org) to find out how you or your organization can support healing, caring, and comforting.**

Carlo Agostino, Vice President; and Natale Agostino, President of Natale's Men's Clothier of Hanover visit South Shore Hospital's cardiac electrophysiology procedure laboratory.

**South Shore  
Hospital**

South Shore Hospital is a charitable, not-for-profit organization that depends on donations to advance the good health of our region.
